#### Corafoam® HDU (High Density Urethane)

A 15 lb. light green color HDU board that is manufactured with a specialized in-continuous technique that allows for a smoother finish and tighter cell structure than other HDU on the market. It will not absorb any type of liquid or decompose even in the most adverse weather conditions. Ideal substitute for wood and other materials. It is a rigid, closed-cell, high density polyurethane material that can be sandblasted, routed, or carved.

- Non-abrasive and grain-free allowing it to be quickly fabricated and cut, resulting in crisp, excellent defined edges after fabrication!
- Easier to finish and creates less dust than other brands.
- Dimensionally stable.
- Light-weight and resistant to most solvents.
- Faster blasting than other brands.
- Less primer needed than other brands.
- Compatible with almost all coatings, primers, fillers and paints.
- Made in the USA.
